Eric Kuznetsov

Senior Frontend Engineer @ Delivery Hero
Berlin, Berlin, Germany

Summary

Senior Software Engineer building fast, accessible, and reliable web products with TypeScript, React, and Next.js. I ship features that feel flawless for users and reduce complexity for engineers through clean architecture, robust testing, and developer-first tooling.

What I bring:
- Product UI: performance, a11y, and usability as a standard
- Platform/DX: CI/CD, code-quality gates, and documentation that scales teams
- Collaboration: crisp communication, calm execution, and mentorship

Toolbox: React, TypeScript, GraphQL, Next.js, Node.js, Vitest/Jest, Storybook, Drone CI, GA

Experience

Delivery Hero
3 years 8 months

Senior Software Engineer
January 2024 - Present (1 year 8 months)
Berlin, Germany

Software Engineer
January 2022 - January 2024 (2 years 1 month)
Berlin, Germany

Sberbank
Senior Frontend Developer
May 2020 - December 2021 (1 year 8 months)
St Petersburg, St Petersburg City, Russia

The project:

Client manager assistance system. Developing a toolbox for business clients' managers at the largest Russian bank.

Tech-stack:

HTML/CSS, TypeScript, React, Redux, WebPack, PostCSS, CSS Modules, Jest, ESlint

Highlights:

- Leading the development of side-projects and prototypes from scratch to release, allowing businesses to swiftly and seamlessly test hypotheses.
- Acting as a Build Engineer in an additional role, maintaining Jenkins-based infrastructure, automating CI/CD processes, and providing the team with fresh releases.

Sletat.ru
Frontend Developer
August 2019 - April 2020 (9 months)
Saint Petersburg, Russian Federation

The project:

Touristic service startup with a fast-paced development velocity. Creating various services for clients, business partners, and internal company employees.

Tech-stack:

HTML/CSS, TypeScript, React, MobX, WebPack, PostCSS, CSS Modules, Jest, ESlint, Sentry, StoryBook

Highlights:

- Pushed the product forward through proactive team collaboration and advocating for ideas and business vision.
- Proposed and implemented data visualization based on D3 charts which significantly improved UX and increased conversion.
- Integrated Code Quality tools like Prettier, Stylelint, and advanced ESlint config which remarkably increased code consistency and smoothed the code-review process which subsequently improved DX and delivery speed.

EPAM Systems
Frontend Developer
October 2017 - August 2019 (1 year 11 months)
Saint Petersburg, Russian Federation

The project:

E-commerce for a global pharmaceutical company. Migrating from legacy ASP.NET to React. Also worked on smaller projects with a similar stack.

Tech-stack:
HTML/CSS, JavaScript, React, Redux, Jest, ESlint,

Highlights:
- As part of an international team, I was presenting our product to the customer, providing transparency and demonstration.
- Took mentoring responsibility, helping fresh students and interns to integrate into a company and their first projects.
- Proactively cultivated internal IT community, participating in the organization of meet-ups, conferences, and a podcast.
